Subject: Draft FRN for release of Tox Review of methanol (non-cancer)
Attachments: Methanol FRN noncancer release 03-17-11.doc

Here's a draft FRN for the release of methanol (non-cancer) and announcement of a 60-day public comment period. I used John Vandenberg's language provided for the web site as the first paragraph and drafted a second paragraph indicating the non-cancer assessment was split out and that the peer review would be conducted by an EPA contractor.

Please send any comments to me and to Macrina Xavier by Monday morning so we can keep this moving forward. I'm assuming a March 31 release date which is a tight schedule for this FRN. It still needs to go to OGC, through NCEA clearance and to OARS for funding and be hand delivered to the federal register office before 10 am on March 28 for a March 31 publication.

Thanks, Karen

Methanol FRN
noncancer releas...
